

Exp: 05 Library Management System

Aim: To Create a simple cloud software application for Library book reservation system for SIMATS library using any Cloud Service Provider to demonstrate SaaS

Output:

The screenshot shows the 'New Appointment' form in the Appointment Booking application. The form includes fields for Name (First Name, Last Name), Mobile Number (with a dropdown for country code, currently +91), Email id, Age, Address (Address Line 1, Address Line 2), City / District, State Province, Postal Code, and Country. The application is running on a web browser, and the URL is creatorapp.zoho.in/sasankmendu/appointment-booking/Schedule_Appointment. The trial expires in 7 days.

The screenshot shows the 'Today's Appointments' view in the Appointment Booking application. The view displays a calendar for Saturday, May 06, 2023, with a time slot grid from 6:00 to 15:00. The grid is currently empty, indicating no appointments are scheduled for today.

The screenshot shows the 'Appointment Requests' view in the Appointment Booking application. The view displays a table with three columns: Pending, Confirmed, and Cancelled. Each column shows a count of 0 and a message 'No Records in Pending', 'No Records in Confirmed', and 'No Records in Cancelled' respectively.

Pending	Confirmed	Cancelled
0	0	0
No Records in Pending	No Records in Confirmed	No Records in Cancelled

Result: Thus, The Library Management System is demonstrated successfully using Zoho Creator.
