

Exp-4 Car Booking Reservation System

Aim: To Create a simple cloud software application for Car Booking Reservation System using any Cloud Service Provider to demonstrate SaaS.

Output:

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/sasankmendu/car-rental#Cab_Booking`. The application is titled "CAR RENTAL" and has a sidebar menu with "Cab Booking" and "Bookings". The "Book a Cab" form is displayed with the following fields:

- Name: First Name (text input), Last Name (text input)
- Employee ID (text input)
- Email Id (text input with email icon)
- Mobile Number: Country code (+91) and Mobile Number (text input)
- Gender: Radio buttons for Male and Female
- Booking Date: Date picker showing 06-May-2023
- Travel Date: Date picker
- Pickup Time: Time picker

This screenshot shows the same "Book a Cab" form as the previous one, but with a different sidebar menu structure. The sidebar menu has "CAR RENTAL" and "Cab Booking" (with a right arrow). The form fields are identical to the first screenshot:

- Name: First Name (text input), Last Name (text input)
- Employee ID (text input)
- Email Id (text input with email icon)
- Mobile Number: Country code (+91) and Mobile Number (text input)
- Gender: Radio buttons for Male and Female
- Booking Date: Date picker showing 06-May-2023
- Travel Date: Date picker
- Pickup Time: Time picker

Result: Thus, A car booking system is successfully demonstrated by using Zoho Creator.
